

FREE REMINDER SERVICE FOR INSURANCE POLICY RENEWAL

NO REGISTRATION REQUIRED

//

It is not unusual to get caught up with work and be so busy so as to let "**little things**" slip through. Especially when the little thing is about paying your [life insurance premium](#) once a year only to recall it after the damage has been done that what you overlooked (**Oh My God!!!!**) was your insurance policy and it isn't a good state to be in when you realize you are over due by one or two months!

So you rush to your insurance advisor or directly contact the insurance company to find out what can be done now and how to salvage the situation! Well why add on tension to the already existing tension in your busy life! Drop your details on existing policies in the form below and We would send you a reminder via SMS or email to alert you about your upcoming policy renewal date. 5 Minutes spent here to fill up the form are going to save you probably more than hour apart from the excitement and perhaps bad news and extra premium you need to pay due to the minor lapse. As it is said (or wisely said) **A Stich in Time, Saves Nine!**

More and more people are becoming aware to use technology for doing things which otherwise if done manually are prone to errors. **Get reminded on time** to renew your insurance policy is one such feature that certainly is going to save you a lot of time if processed and acted on time.

We at eMediClaim are here to give you a **free reminder to pay your insurance premium** much before it lapses and what's more - if needed, will gladly help you to collect the premium and deposit it with your insurance company on your behalf (available in limited cities and conditions may apply)

The free reminder service is **ABSOLUTELY FREE** and doesn't require any online registration, just fill in the details below and let our team take care of the rest to give you an alert **30 days** prior to the policy expiry date.

{mosforme 3}

Please use contact form for any questions, suggestions, queries or feedback. While every effort would be made to contact you and provide the necessary alert, it is possible that there may be changes in your contact details or that we are not able to reach you due to technical issues. eMediclaime takes no responsibility towards failure in not being able to alert you during the 30 day / post policy lapse period. This is a free service and will be provided to the best of our ability, but is not guaranteed. Also the service is available for policy holders in India only and mode of contact would be SMS, email or phone call.
