What is Health Insurance?

Health Insurnace is to Cover medical treatment in case of illness and accidents. By purchasing right policy one can get good medical care without worrying about expensive treatment. We at eMediclaim assist you in making the right choice to cover your needs and provide you maximum protection should the situation ever arise.

Why health insurance?

Over the years, like everything else from Petrol to Onions... medical expenses too have increased manifold. Common man has to stretch to uncomfortable financial limits to get proper treatment for himself and his family.

How much cover does one need for Health Insurance?

One must look at the salary being earned and take a cover that is large enough so that should there be a problem in terms of a medical issue, at least you can get good treatment in the same fashion as you were in employed state. If you earn more than 5 lakhs per year, get a cover of at least 5 lakhs. Anything below that, take a cover equal to your annual income.
