## **Unit Linked Insurance Plan - ULIP**

//

A unit-linked insurance plan (**ULIP**) is a tyof life insurance where the cash value of policy varies according to the current asset value of the underlying investmassets.

It allows protection and flexibility investment, which are not present in ot types of life insurance such as whole policies. The premium paid is used purchase units in investment assets chosely the policyholder.

**ULIP** came into play in the 1960s and popular in many countries in the world.

As progressed times the pla successfully were also mapp with insurance along life ne retirement planning. to today's times, **ULIP** provides solutions insurance planning, financial needs, a many types of financial planning includ children's marriage planning.

In India investments in **ULIP** are covered under **Section 80C of IT Act**. However, the concept of having an investment and insurance by the same instrument was challenged by the market regulator SEBI which took up the matter to the Supreme Court of India .The Indian government brought down curtains on the two-month long tussle between the regulators by ruling that **Unit-linked Insurance Products** (**ULIP**) will be governed by the **Insurance Regulatory and Development Authority** (**IRDA**).
